EDUCATION

Florida Atlantic University

M.S. in Computer Science — GPA: 3.75

Jan 2024-Dec 2025

- Coursework- *Data Structures & Algorithms, Machine Learning, Database Management Systems, Web Development, Operating Systems, Deep learning, Data Science, Neural Networks, Software Engineering.*

MLR Institute of Technology, Hyderabad, India

Bachelors of Technology in Information Technology — GPA: 3.5

Aug 2019 –May 2023

EXPERIENCE

Computer Society of India (CSI), MLRIT

Java / Full Stack Java Developer (Student Member)

Jan 2020 – Nov 2023

- Worked on application development projects, focusing on end-to-end backend processing, data handling, and workflow management to ensure smooth functionality and user experience
- Contributed to backend development using Java and Spring Boot, implementing business logic and workflow modules to manage data-driven processes
- Designed and integrated RESTful APIs to support seamless communication between frontend and backend systems
- Developed and optimized SQL queries using MySQL/PLSQL, improving data processing efficiency and reducing execution time
- Provided application support by identifying and fixing bugs, ensuring system stability and minimizing downtime
- Collaborated with peers on project development, translating requirements into technical solutions and delivering features within timelines
- Participated in debugging, testing, and performance tuning of applications, enhancing reliability and responsiveness
- Gained hands-on experience in Java, Spring Boot, JavaScript, MySQL, and backend system design through continuous development and project work

PROJECTS

Netflix-Style Portfolio Application *React / JavaScript / Tailwind CSS / REST APIs*

- Built a responsive, Netflix-style UI using reusable React components, ensuring high performance across devices
- Integrated REST APIs for dynamic data rendering and scalability
- Applied state management, lazy loading, and performance optimizations for smooth user experience

Journal Entries (Secure REST API) *Java / Spring Boot / MongoDB / JWT / AWS*

- Developed secure REST APIs with CRUD, pagination, and filtering using Spring Boot and MongoDB
- Implemented JWT authentication, role-based authorization, and robust exception handling
- Followed layered architecture with DTOs and tested using JUnit & Mockito

TECHNICAL SKILLS

Frontend & Backend: Spring Boot, Spring Security, REST APIs, JWT, Maven, GraphQL, React, Next.js, HTML, CSS, Tailwind, TypeScript

Languages & Databases: Java, C++,Python,C#, JavaScript, SQL , MySQL, MongoDB

Cloud & DevOps: AWS (EC2, S3), Docker, Linux

Testing & Tools: JUnit, Mockito, Jest, Git, GitHub, IntelliJ, Postman, VS Code

Core Concepts:

Object-Oriented Design, API Design, Secure Systems, Distributed Systems Basics, Data Modeling, CI/CD, Agile Development, Micro Services, UI/UX design

ACHIEVEMENTS

-Solved 230+ Leet-code Problems (link- <https://leetcode.com/u/karthikbharathapu/>)

-Achieved a second place in a coding competition conducted in Florida Atlantic University by the ATT Club
